

Problem 3 | Observable location constraints r1-p3-survey-001 | preregistered channels [17, 14]

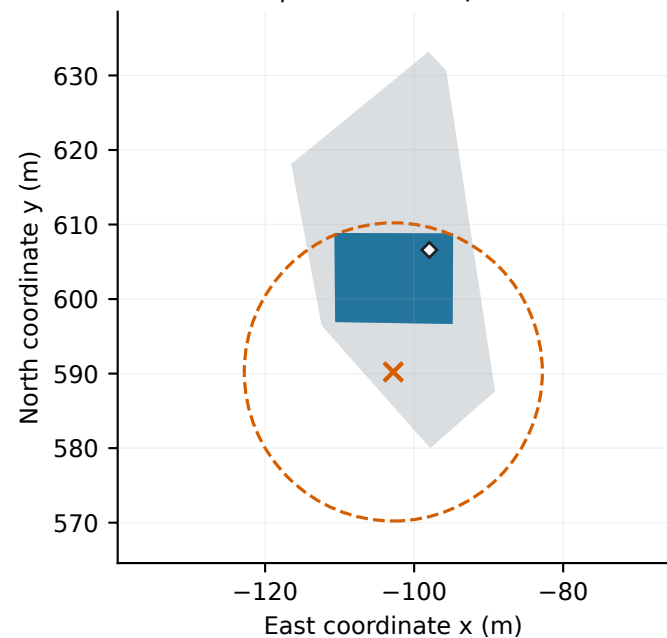

Channel 17 | All recorded positive constraints

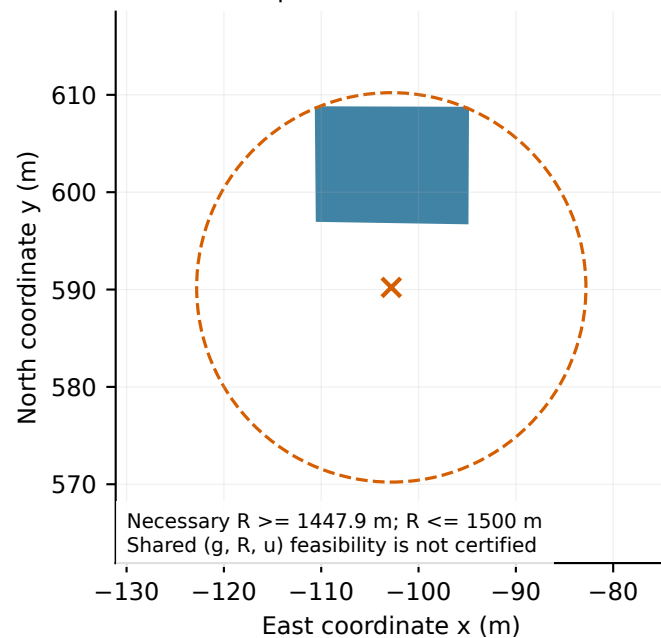

Channel 17 | Final outer bound and clearance disk

Channel 14 | All recorded positive constraints

Channel 14 | Final outer bound and clearance disk

- After fixed coverage
- After added survey
- Final conservative outer bound
- 20 m successful-clearance disk
- x Clearance point (not true source)
- ◇ Frozen observation-based estimate
