

Problem 4 | Observable location constraints r1-p4-survey-001 | preregistered channels [8, 13]

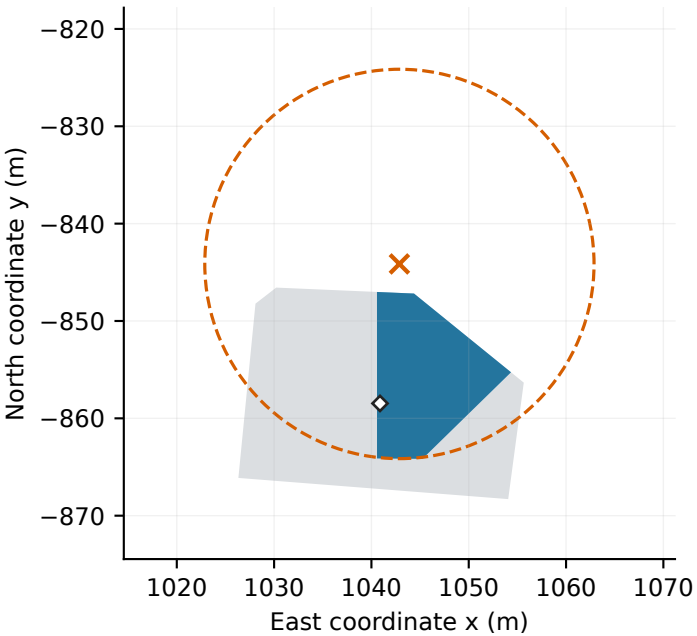

Channel 8 | All recorded positive constraints

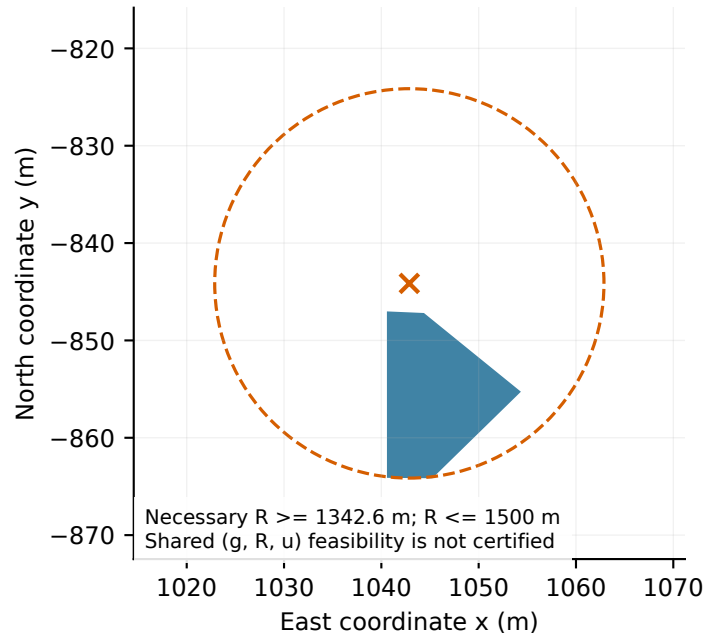

Channel 8 | Final outer bound and clearance disk

Channel 13 | All recorded positive constraints

Channel 13 | Final outer bound and clearance disk

- After fixed coverage
- After added survey
- Final conservative outer bound
- 20 m successful-clearance disk
- x Clearance point (not true source)
- ◇ Frozen observation-based estimate
