M06: fixture_joint / R=5 / noise=deterministic

P4 | survey | Local mechanism candidates versus official development

All geometric station pairs, physical design fixture

Pointwise exploratory 95% whole-case intervals; O/L = official development/local case clusters

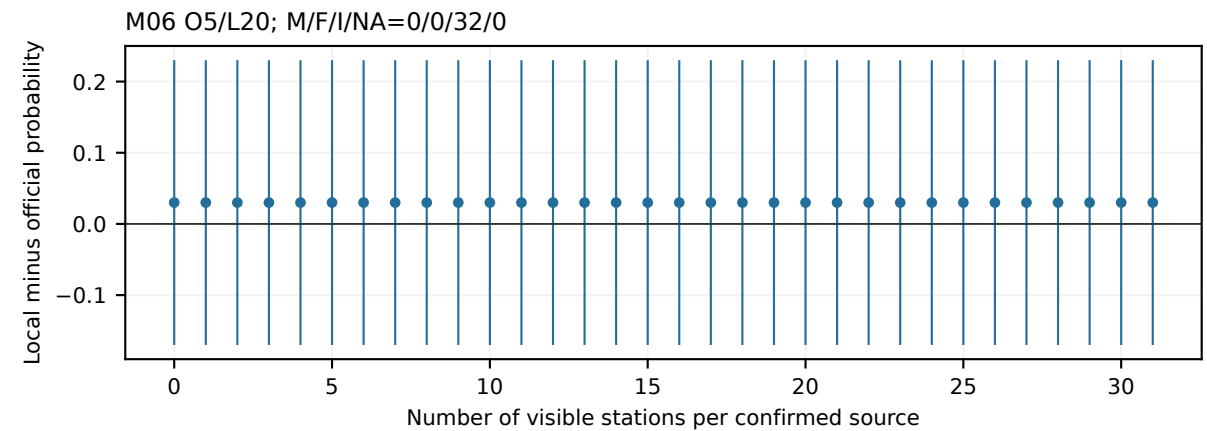

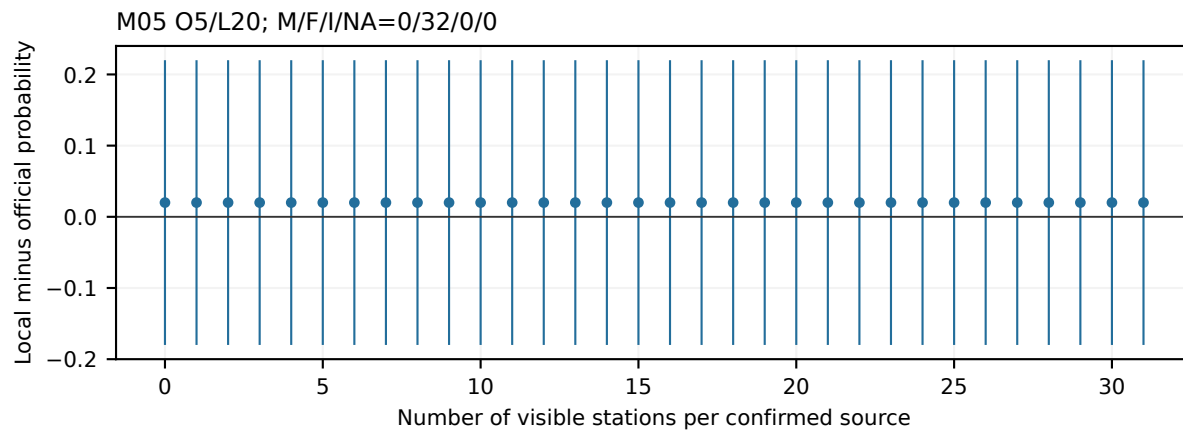

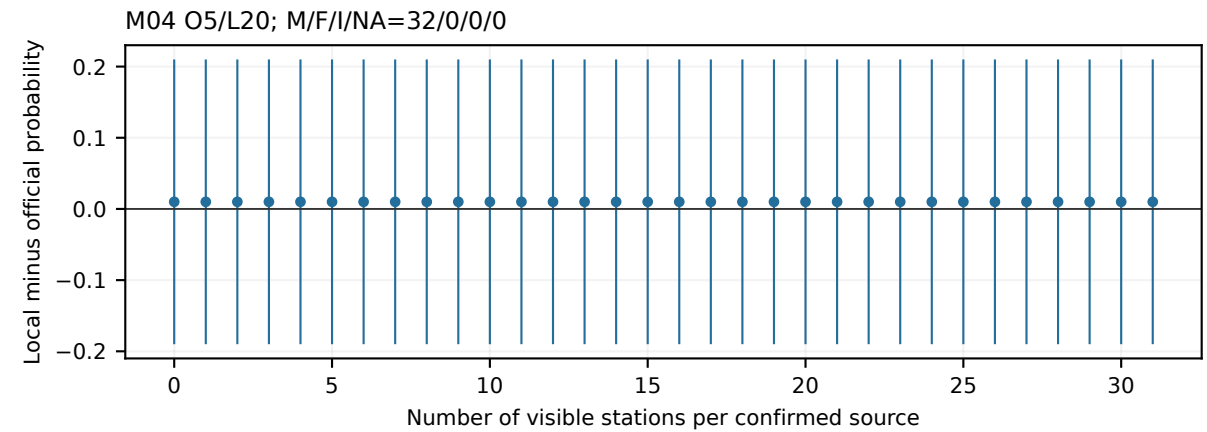

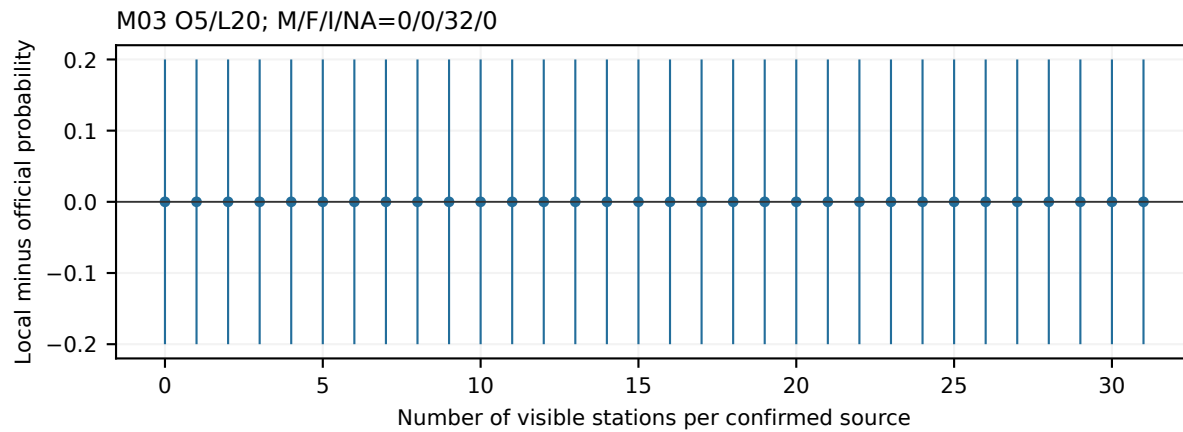

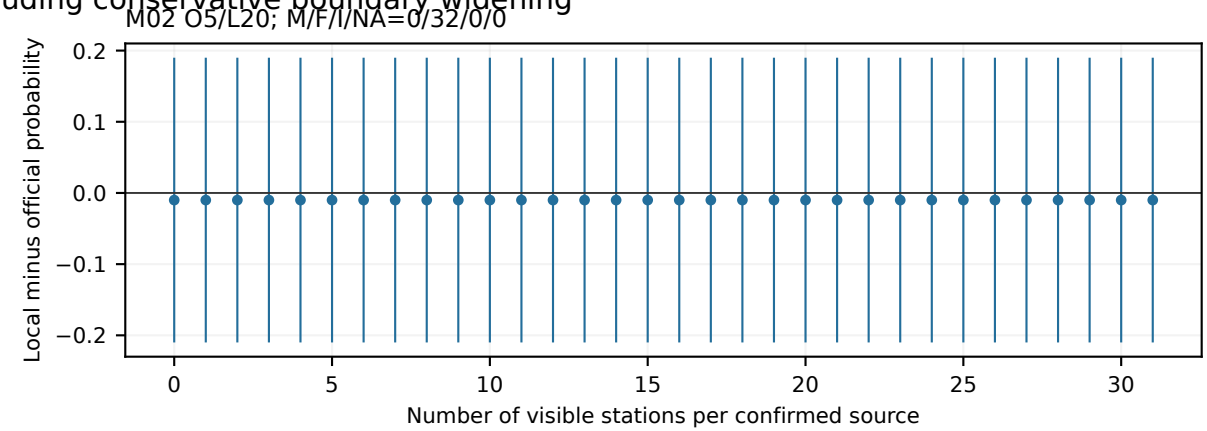

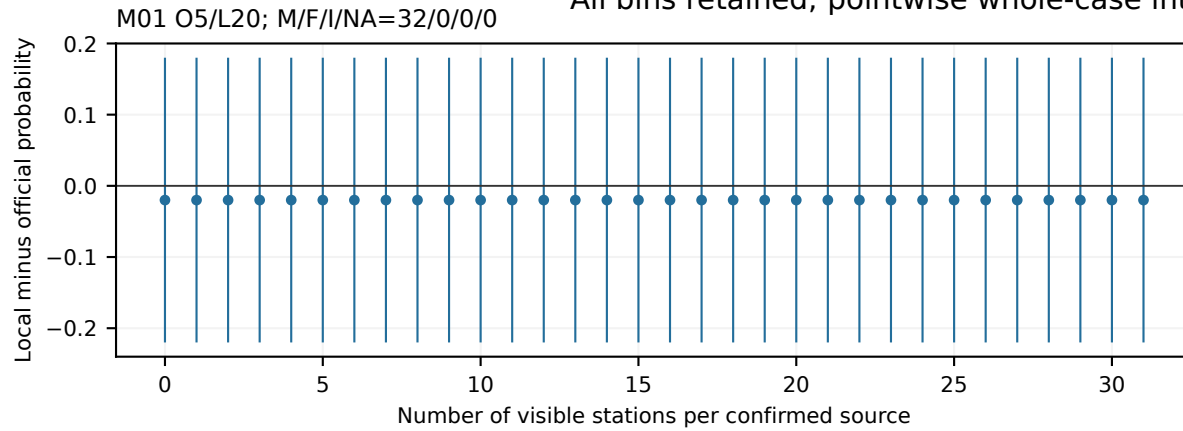

M01: fixture_joint / R=0 / noise=deterministic
M02: fixture_joint / R=1 / noise=deterministic
M03: fixture_joint / R=2 / noise=deterministic
M04: fixture_joint / R=3 / noise=deterministic
M05: fixture_joint / R=4 / noise=deterministic
M06: fixture_joint / R=5 / noise=deterministic

P4 | survey | Local mechanism candidates versus official development

Visible-count distribution, physical design fixture

All bins retained; pointwise whole-case intervals, including conservative boundary widening

M01: fixture_joint / R=0 / noise=deterministic

M02: fixture_joint / R=1 / noise=deterministic

M03: fixture_joint / R=2 / noise=deterministic

M04: fixture_joint / R=3 / noise=deterministic

M05: fixture_joint / R=4 / noise=deterministic

M06: fixture_joint / R=5 / noise=deterministic
